Muskogee Technology Regular Full-time Position Closes: 2-28-18/4:00

QUALITY SPECIALIST I OF MUSKOGEE TECHNOLOGY

The Quality Specialist I is responsible for assisting with the development of quality control practices and performance for all Composites and Electronics Operations provided by Muskogee Technology.

CIEDA PURPOSE

We secure our Tribe's future by optimizing returns on funds and natural resources entrusted to us by the Council. We empower talented leaders to focus their energy and build profitable organizations by adding value with our capital and management expertise to high potential business ventures. This creates opportunities for our Tribe and generates wealth thereby leaving a lasting legacy.

REPORTING RELATIONSHIP

The Quality Specialist I of Muskogee Technology shall report directly to the Director of Support Services.

DUTIES AND RESPONSIBILITIES

- Responsible for all quality and compliance measures for Composite Operations which include the Clean Room, Electronics, Freezer Inventory Management & Control, Shipping/Receiving of Composites & Electronics, and relative supportive services.
- Responsible for interpreting Contract specifications for all Composite & Electronics Operations in coordination with Management, in order to develop, implement, and sustain all quality and procedural elements of Composite Operations necessary for compliance and customer contract regulation and standards.
- Assist in the development of the quality control plan by creating sample test plans and implementation.
- Assists with researching, evaluating and developing improved techniques and procedures for the Quality Management System (QMS) to aid in maintaining a high standard of quality performance, reliability, and safety that are in-line with Muskogee Technology's goals and objectives.
- Assists in the development of drafting Standard Operating Procedures (SOP's) and implementing these within daily work practices in coordination with the appropriate member of Management and Muskogee Technology policies and procedures.
- Performs daily duties and assignments to identify specification requirement's, certification of compliance, completion of receiving documents, packing list and drawing reviews to institute companywide quality improvement efforts.
- Utilize measuring and test equipment with inspection procedures and techniques to determine if raw materials, WIP and finished goods meet customer requirements.
- Performs daily duties and assignments to complete inspection reports, tags and papers necessary for the success of Composites & Electronics operations.
- Reports to members of Management, on the performance of the quality system for review as a basis for improvement of the quality system.
- Helps act as liaison with suppliers on matters related to non-compliance in respect to Composite & Electronics Operations.
- Follows established Quality Policies and Procedures to ensure Muskogee Technology operations meets contract quality requirements and compliance standards.
- Performs other duties as assigned by the Director of Support Services and other members of management.
